114	1	9/5	2					1						The PAP method is the result of FIFTEEN YEARS of research and extensive, <u>real-world</u> practice on the "front lines" of racetracks across America. Ray Gordon began developing PAP in response to the Beyer Speed Figures' inclusion in the Daily Racing Form past-performances, thus eliminating their "insider" status. PAP converts a <u>pre-race projected speed-figure</u> into an accurate "value line."
